after their trial trips. The custom is to retain new vessels for a time on the home station until all the requirements of the contract are fulfilled, but their presence allows other ships to be sent to the foreign squadrons, whither they can also be despatched afterward in their turn. Thanks to the energy and liberality with which the laying down of new vessels was authorized and undertaken a few years ago, we are just now in a prolific season of trial runs.

SAYS HE'S A LIVE MUMMY,

That He Has Been One for Seventy Years, and that He Is Now 104 Years Old.

We have received a letter from La vaca, Ark. The letter is in the script of an aged writer, and the envelope bears the mark of Lavaca post office. It has internal evidence of being genuine, and the writer of it claims that seventy years ago he determined to preserve himself with drugs, and that he has succeeded, so that up to date he is 104 years old. He does not disclose what drugs he has used, nor the process of applying them, whether internally or externally, nor does he send us his photograph to show how he looks after being preserved for so many years. But we print his letter:

"MR. EDITOR: Preserving my living body until I have reached 104 years, I am glad to tell what I have done:

"About seventy years ago I was told that in olden times, and even in modern times, the people had a way of preserving the dead. The idea struck me that if the dead could be preserved by drugs, perfumes and chemicals, why not preserve the living? I told my friends and neighbors that I believed that the living body could be preserved as well as the dead, but as they had never seen it tested they were not prepared to give an opinion. I concluded to try the experiment, but my neighbors advised me to let nature take its course, as I would die as soon as my time came. I began the experiment, regardless of my friends' opinion and protest, and now I look back and see they are all dead."

"I commenced preserving my body seventy years ago, when I was thirty-four years of age, which now makes me 104 years old. I undertook the experiment for the purpose of preserving my body and prolonging my life, and I have met with success, which gives me ample satisfaction. But even now some people say that they don't believe the living body can be preserved and human life prolonged. The reason that they don't believe in preserving the living body and prolonging human life is this: They are still going to mill as their fathers and grandfathers did, with corn in one end of the sack and a stone in the other. My efforts in preserving my body and prolonging my life have been crowned with success, and now, as far as I am concerned, the people may cry out from the hills and mountain tops that they don't believe, but in all probability I may live long enough to hear the clods of earth fall over their graves and the sound of their voices silenced in death. "Lavaca, Sebastian county, Ark., August 22, 1893. —Mobile Register. "G. N. CROOM.

MEN AND WOMEN.

Servia's King, aged 17, has a beard. Kitty Wilkins of Idaho has 3000 horses.

The Duke of Devonshire owns 80,000 acres. Siam's King wears a twenty-seven pound hat.

A man named Constant Agony died in New York the other day.

Chief Justice Stone of Alabama has been fifty years on the bench.

Leisure for men of business and business for men of leisure would cure many complaints.—Mrs. Thrale.

Frederick Law Olmstead, the landscape artist, was made an LL.D. by Yale and Harvard on the same day.

W. C. Todd has given \$2000 a year to the Boston Public Library, to be expended in newspapers for the free reading room.

It is said that the state attire of the King of Siam is worth over \$1,000,000. He has 300 wives and eighty-seven children. He is 40 years of age.

Barnes Greeley, the only surviving brother of Horace Greeley, lives at the age of seventy-nine years, on the old Greeley homestead at Chappaqua.

Henry Jones ("Cavendish"), the famous English whist player now traveling in this country, says that whist is much more studied in America than in England.

P. D. Armour has been compelled for some time, because of ill-health, to restrict himself to a diet of bread and milk and baked apples, which isn't half bad for a well man.

The famous Chicago grain broker "Old Hutch" visited the World's Fair recently. He carried a sandwich lunch in his pocket and assured his friends that he is living comfortably on a dollar a day.

Aim at the Drake

And you are bound to hit some of the ducks. This is precisely the same with

Wampole's Tasteless Preparation OF Cod Liver Oil.

It aims to cure Consumption, Hits the Mark, too, and it most effectually breaks up Colds, Coughs, Hoarseness and all Throat and Lung troubles that cause this disease.

It is natural logic to conclude that if WAMPOLE'S PREPARATION OF COD LIVER OIL has power to prevent Consumption, it surely is able to cure these lesser emergencies.

This vigor-making, fat producing preparation is Absolutely Tasteless, in so far as Cod Liver Oil is concerned. All you notice is a delightful flavor of Wild Cherry and Anise.

But the purest Norwegian Cod Liver Oil is there all the same. It is a great blood enricher. Best of all it is a natural food that in its stomachic effects, actually assists its own assimilation.

In Pulmonary or Bronchia troubles it is unequalled. No one doubts the value of Cod Liver Oil, but not every one is able to take it.

WAMPOLE'S PREPARATION removes the nauseous objection and actually makes Cod Liver Oil palatable.
